**OFFICE ACTION**

***Response to Amendment***

1. The amendment of claims 7-8 and 19 dated February 13, 2006 is acknowledged.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

3. Claims 7-18 are rejected under 35 U.S.C. 112; second paragraph, as being vague and indefinite, because claim 7 reciting a limitation followed by a linking term "may be" does not clearly set forth the metes and bound of the patent protection desired. *In re Hammack*, 166 USPQ 204 (CCPA 1970) and *In re Moore*, 169 USPQ 236 (CCPA 1971). Moreover, the definiteness of the claims is important to allow others who wish to enter the market place to ascertain the boundaries of protection that are provided by the claims. *Ex parte Kristensen*, 10 USPQ 2d 1701, 1703 (PTO Bd. Pat. App. & Intf. 1989). Therefore, the use of this exemplified term is not indefinite per se, but the use of this term (i.e., may be) to link broad and narrow ranges or limitations renders the claims indefinite.

***Response to Arguments***

4. Applicants' argument that "*Sakurada* '646 does not disclose, nor does it suggest, using such a silicon single crystal wafer as a bond wafer for forming the SOI layer of an SOI wafer..., wherein at least the silicon active layer consists of silicon single crystal grown by Czochralski method, as required by claim 7 or its dependent claims 8-18" is persuasive.
